NARCISSUS CANDLESTICK SMALL

The Narcissus candlesticks take their name from both the fatally handsome Greek hunter of mythology and the oval bulb of the flower that bears his name. The intense weight of these solid brass objects is an arresting contrast to their pure, simple, and reflective form. They arrange themselves very smartly in groupings of graduated sizes. Shown in Burnished Brass.

DIMENSIONS:

Overall: 4-7/8" h. x 3" diameter

OPTIONS:

Custom finishes available.
