

## BUBBLY 06-LIGHT PENDANT WITH GLASS

Bubbly is an effervescent all-brass lighting system inspired by soap bubbles and Newton's laws of universal gravitation. The modular system comprises discrete brass spheres - meticulously assembled to form abstract organic fixtures, reminiscent of biochemistry models and geological formations. Bubbly strikes a lively balance between chaos and structure. Here with a choice of Smoke or Opal handblown glass shade. Designed by Rosie Li.

Shown in Rosie Oil Rubbed Bronze.
