AHL4205

Circa 1920

A six sided lantern with cast bronze metalwork in its original darkened patina. Set with thick panes of glass, each with hand-cut and frosted swag patterns. The hexagonal body surrounding a three light cluster. The metalwork is exquisite with close-fitting half round glazing bars and a solid run of brazed delicate chain among other fine details. Due to the antique nature of this fixture, there may be some nicks or imperfections in the glass.
