

Tony Duquette by REMAINS LIGHTING

DUSK PHOENIX CANDLESTICK

Tony Duquette returned to the themes of renewal and rebirth, represented by the phoenix, many times in his career. This limited edition classic candlestick design is composed of the stippled shell of a real ostrich egg, onyx, and serpentine hardstones, and is hand gilded with 23 karat gold. Each egg is unique, lending this fixture subtle variations in height and diameter. Shown in Duquette Gold Leaf.
