

Tony Duquette by REMAINS LIGHTING

CALIFORNIA SUNBURST 24 FLUSH MOUNT

Inspired by the sun motifs in Tony Duquette's "California Sunburst" stage curtain for the LA Music Center (1964) and his San Francisco Canticle of the Sun exhibition. The rays of hand-polished metal reflect the light in a starburst pattern on the ceiling and let slivers trace through the faceted bottom. Shown in Duquette Brass.

DIMENSIONS:

Overall: 5" drop x 24" diameter

LAMPING:

3 Candelabra sockets, maximum 60 watts per socket
